Within any public area dog handlers must:

- keep their dog(s) under effective control at all times, either by:
 - restraint on a leash OR
 - unrestrained within a designated dog off-leash area but under the continuous supervision of a person who is able to control the animal by voice command
- immediately remove and dispose of their dog's faeces in a sanitary manner
- prevent their dog(s) from attacking a person or animal, or acting in a way that causes fear to a person or animal, or cause damage to property
- ensure their dog(s) are currently registered within the local government area where they are usually kept
- ensure that declared dangerous, menacing dogs, and prohibited breeds meet with conditions outlined in the declaration for that animal
- ensure that female dogs that are in season (on heat) are not brought into a public area

Within a fenced enclosure dog handlers must also:

- ensure that gates are closed after entry and exit
- ensure that no other dog escapes the enclosure whilst entering or exiting

Penalties apply.
